

CZ.1.05/2.1.00/03.0064

The Contracting Authority Centrum dopravního výzkumu, v. v. i., based Lišeňská 33a, 636 00 Brno after rejecting of the offer by the Commission for assessment and evaluation of the offers, issues in the small-scale public contract for supplies:

## "VR 57A supply of eye -tracking for Transport R & D centre"

I exclude from the tender the candidate:

**SMI – SensoMotoric Instruments GmbH, Warthestraße 21, D-14513 Teltow, GERMANY,  
HRB22447P**  
(hereinafter „the candidate“)

delivering offer No. 1

### **Justification:**

The Commission for assessment and evaluation of the offers found out, that the candidate changed the text of the contract so, that he reduced the extent of required schooling. The Contracting Authority's contract proposal was binding and it's changes cannot be accepted, because the offers would be incomparable.

The Commission stated, that the offer No. 1 didn't fulfil the tender conditions given by the Contracting Authority.

For this reason, the Commission rejected the offer and recommended to the tenderer to exclude the candidate from further proceedings in this tender. The Commission's recommendations were accepted and decided, as stated above.
